

# RESILIENCE *Rising*

## Leaders Academy for Sustainable Community

Resilience Rising is a 4-week summer program for students aged 15 years and up. The program provides four weeks of sustainability, leadership, and career training. You will explore local businesses, organizations, and public agencies and meet the leaders of Sonoma County's pioneering sustainability practices. Site visits, tours, role-playing, discussions, speakers, and activities are all part of the Resilience Rising experience.

COMMUNITY  LEADERSHIP  EQUALITY  CAREER

### PROGRAM HIGHLIGHTS:

-  Spend a day in the shoes of today's urban farmers at Farmster, located at Sonoma Mountain Village.
-  Fly high at a local ropes course! Challenge your perceptions of teamwork and go outside your comfort zone.
-  Sharpen your culinary skills under the guidance of a professional chef while preparing meals for people who often go without.
-  Meet, greet, and interview your community leaders - or why not put your public officials on the spot in complex issue debates!
